MessageBank

Your Mobile Phone Answering Service

In today's competitive business world, you can't afford to miss any phone calls and valuable business opportunities.

Telecom's MessageBank service is now available to ensure you can receive calls to your mobile phone at all times.

PERSONAL GREETING • Callers will hear only your greeting

- This can be changed at any time

SECURITY

- Your unique PIN number ensures your messages remain completely private
- Create and change your own password number, whenever you want
- No-one else can access your mailbox

RELIABLE

- There are no machines to install. Therefore no tapes to break or replace

CALL DIVERSION

- By using your call diversion facility you can program MessageBank to call your pager or any phone number (with tone dialling) anytime, anywhere

ACCESS TO MESSAGES

- It doesn't matter where you are, by using any touch-tone phone, in the car, office, at home, interstate or overseas you can access your messages

GROUP LIST

- The same message can be sent simultaneously to many MessageBank users

TIME SAVING

- No more lost slips of paper
- No misunderstanding due to inadequate message taking by a third party
- Short to the point conversations
- You can receive and respond to messages quickly and easily in one call (to another MessageBank user)

MessageBank will become essential to you and your business.

TRY IT.

With MessageBank you need never be out of touch again.
