

# INSTRUCTION SHEETS.

## INTERNAL PLANT INSTALLATION

### 1. GENERAL.

1.1 To assist the man on-the-job, a series of Internal Plant Installation Instruction Sheets will be issued.

These sheets show how a job is actually done; they are issued primarily for display purposes but may be cut into pages and inserted in the E.I. cover.

1.2 Officers in charge of internal plant installations (e.g. Supervisory and/or Senior Technicians) must see that the appropriate sheets are displayed on installation jobs.

1.3 The following sheets will be issued -

No. 1 - Transportation of Portable Type Exchange Building.

No. 2 - Siting Portable Type Exchange Buildings.

No. 3 - Handling Equipment in a Prefabricated Building in which a Cat-Head has not been provided.

No. 4 - Handling Equipment in a Building Equipped with a Hoist.

No. 5 - Handling Equipment in Building using Mobile Gantry and Rack Tilter.

No. 6 - Handling L.L.E. Racks with Hoist and Trolley in a Building.

No. 7 - Lock Stitch.

No. 8 - Block Stitch.

No. 9 - Modified Siemens ' Stitch.

1.4 The Internal Plant Installation Instruction Sheets are available on request from an officer in charge of an internal plant installation to the Engineering Instruction distribution officer in each State.

**END.**
